

TURKISH DELIGHT!

Built at its boatyard in Bodrum, Turkey, a town renowned for its hand-made wooden boats, Pruva Yachting's fleet of gulets now lead the Turkish charter market. From the first plank of wood to the "welcome aboard" glass of champagne, great care and expertise has gone into the design, construction and equipping Pruva's gulets, to make them the best in their class. These stylish yachts are equipped to provide five-star holidays for their guests, cruising in some of the world's cleanest seas along some of the world's most beautiful shores, along the southern coast of Turkey.

The M/S 'Dogukan's maiden voyage was in August 1996, while M/S 'Batuhan', M/S 'G.Bulut' and M/S 'Bugra' were completed in 1997. For the season 1998 season Pruva launched three more boats, the M/S 'Primadonna', 'M/S Berkin' and 'M/S Piccolo'.

Then in early July 2004, M/S 'Queen Of Karia' was ready for charter as finest example of traditional Turkish gulet. She is currently the largest gulet in the fleet and offers a very unique class of comfort.

For the 2006 season, another high quality gulet, M/S 'Silver Star' has been launched and for the season 2007, a superb sistership for 'Queen Of Karia', named 'Queen Of Karia II' was launched and joined an already impressive charter fleet.

Featured here are just two of the beautiful yachts that Pruva Yachting build and charter - the 39m 'Take It Easier' and 49.7m 'Regina', featured overleaf.

Luxury is standard during a
Pruva Yachting charter.*

Aware that the time allocated for holidays is precious, Pruva Yachting's management and its experienced personnel, ensure the complete satisfaction of its guests on every cruise, aboard these eminently comfortable and spacious yachts. Pruva Yachting are happy to advise on all aspects of its guests travel arrangements and can offer a wealth of experience to make sure each holiday is customised to its client's specific requirements.

From the first enquiry to the Pruva Yachting offices, the company will efficiently and professionally assist and advise, to make any cruise aboard one of its gulets, a tailor-made dream come true.

'TAKE IT EASIER'

Since her launch in 2004, 'Take It Easier' with a length of 35m, is one of the largest yachts chartering on the Turkish Riviera and Aegean Sea.

Built by Pruva to the highest quality standards, on board there is a beautiful and spacious master stateroom, a spacious VIP suite, 1 double cabin and 2 twin cabins. In all she can accommodate up to 10 passengers in spacious luxury.

With all cabins being fully air conditioned, guests can keep icy cool even when the weather heats up outside. All cabins are also fitted with satellite TV, DVD player and mini bar facilities as well as hydro-massage shower cubicles.

Served by an experienced crew of six, 'Take it Easier' is the perfect luxury yacht for cruising the crystal clear waters of the Mediterranean and Aegean and is available for charter through Pruva Yachting.

'REGINA'

'Regina' is a 49.70m classical schooner newly built by Pruva Yachting to cruise the world. Designed both as a charter yacht and an ocean going private vessel, she has two aluminium alloy masts and a strong standing rigging supplied by Christopher John Mitchell, AES Ltd. The steel hull is built both on vertical and longitudinal frames to ensure hull stiffness when under strong sea conditions.

The interior styling on 'Regina' has a classical style constructed in clear mahogany wood. All three master cabins have a separate dressing room and are specially fitted with Satellite TV, DVD and a state-of-the-art music system. As well as the three master cabins there are three additional guest cabin, which are all equipped and furnished to the highest standards. The large saloon and deck areas are ideal for offering excellent charters cruise for guests, while a large galley equipped to a very high standard will keep guests wonderfully fed and watered.

With crew accommodation for nine, service will be of a very high level on board this stunning yacht.
